# Practical information

## MATERIALS & FINISHES

Our jewellery is available in S925 Sterling Silver and 18Kt Gold-plated finishes. All Studio Stones are handmade in our Oslo studio, making each piece unique in colour and surface.

## COLOUR OPTIONS

Each collection is available in a wide range of colours. Subtle variations in colour and shine are a natural part of our handcrafted process.

## INTERCHANGEABLE PENDANTS

Selected designs feature interchangeable pendants, allowing the colour to be changed within the same piece. Two single pendants are included where this applies.

## PACKAGING

All jewellery is delivered in our signature jewellery box, designed to protect the piece and suitable for gifting.

## CARE AND WEAR

To preserve the finish and colour of your jewellery, we recommend avoiding contact with water, perfume and cosmetics. Store each piece in its jewellery box when not in use.

## MADE IN NORWAY

In 2025, we were proud to be awarded Norway's official origin label, Made in Norway. The label confirms that we meet the required criteria for Norwegian origin for a selection of our jewellery.

All our collections are designed by Norwegian jewellery designer Ellen Kvam. The pieces that feature Ellen Kvam Studio Stones are handcrafted in our Oslo studio, where the stones are individually made and set as the signature piece of each design.

A handwritten signature in black ink, appearing to read "Ellen Kvam". The signature is fluid and cursive, with a horizontal line underneath it.
